

CIBC | Commerce Court Complex | Wayfinding, Directories & Identification

Location Toronto, Ontario
Designer / Architect Tudhope & Associates | Zeidler Roberts Partnership Architects
Duration Sep 1992 - May 1994

Scope - Soheil Mosun Limited was contracted to fabricate and install the wayfinding, directories and building identification for the CIBC Commerce Court Complex in Toronto's financial district.

Highlights - Building identification on main entrances are waterjet cut, stainless steel, pin mounted graphics. The site identification sign is a 48 inch diameter, double sided internally illuminated Commerce Court logo. Computerized touchscreen directories are kiosk type, built with 3/16 inch thick painted aluminum with pewter metallic finishes and incised acrylic backlit maps. Pylon way-finding signs and direction signs are both duracron and stainless steel with aluminum reveals. For the wayfinding pylon signs, text graphics are etched/engraved and filled with the arrows being incised 3/16 inch stainless steel. Hanging signs throughout the underground court are 3/16 inch edge lit acrylic featuring full colour PATH system identification and mounted flush to the ceilings.
