

Dufferin Catholic School Board - Vine of Remembrance

Location Mississauga, Ontario
Designer / Architect Soheil Mosun Limited
Duration Mar 2001 - Apr 2001

Scope - Soheil Mosun Limited was commissioned to design, manufacture and install the Vine of Remembrance donor wall, approximately (40) lineal feet of brass as well as (1) 1/4" thick etched and patinaed solid brass plaque.

Highlights - The goal for Soheil Mosun Limited was to design a functional and scalable wall-mounted donor wall for an existing circular shaped chapel. The wall features individually cut and removable brass leaves that are shaped and formed for realism. Leaves are removed, etched with gold infill and replaced when needed. The large plaque features a linear brushed finish with etched and patinaed infilled graphics on solid brass.
