

First Canadian Place - Hallway Directories

Location Toronto, Ontario
Designer / Architect Gervais Harding Associés
Duration Nov 2004 - Jan 2005

Scope - (46) Custom Stainless steel and glass Floor directory and Directional signs.

Highlights - The challenge was to meet the designer's requirement to suspend two tempered glass panels, complete with a changeable vellum graphic insert, without any visible fasteners. Soheil Mosun Limited's ability to collaborate technically with the designer to ensure their vision is achieved in a manner that meets both budget expectations and operational requirements, is one of the many reasons we are a preferred vendor for custom architectural signage.

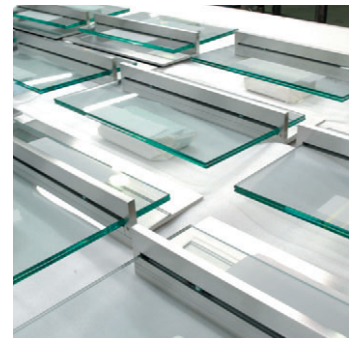

Professional assembly with precision waterjet cut pieces

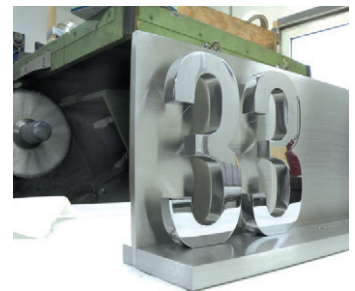

Two suspended glass panels

Sleek, bold and very elegant

Directories ready for mylar inserts and polished numbers

High-gloss polished stainless steel
