

Concord Adex Development Corp - Woodsy Park Maple Leaf Canopy Trellis

Location Toronto, Ontario
Designer/Architect Demakersvan (Joep and Jeroen Verhoeven)
Duration Oct 2017 - Sep 2018

Scope - Soheil Mosun Limited was commissioned to fabricate and install (2) tree trunks with stainless steel painted maple leaves mounted to the canopy branches at Woodsy Park in Toronto.

Highlights - The trees stand at approximately 12' high and are fabricated from 1/2" thick COR-TEN steel plate with exposed filled welds 4" long stitched 8" apart. The maple leaves are painted stainless steel lattice mesh work welded to the COR-TEN trunks.
